

Trendy Cleaning & Maintenance

Septic System Maintenance Checklist

Routine Maintenance

- Schedule septic tank pumping per the suggested schedule
- Book annual inspections with Trendy Cleaning
- Monitor water usage to avoid system overload
- Use septic-safe cleaning products
- Keep records of all service visits and repairs

What NOT to Flush

- No wipes (even 'flushable' ones)
- No paper towels or feminine hygiene products
- No grease, oils, or fats
- No harsh chemicals or bleach
- No non-biodegradable items

Cleaning & Care

- Clean filters and effluent screens quarterly
- Check for odors or wet patches near drain field
- Avoid driving or parking over the tank or field
- Keep trees and roots away from septic lines
- Use Trendy's eco-friendly degreasing service

Emergency Readiness

- Know the location of your septic tank and access points
- Post Trendy's emergency contact number (649) 241-0412
- Watch for signs of backup: slow drains, gurgling, foul smells
- Schedule Trendy's emergency pumping if needed

Trendy Services to Include

- Maintenance plans for commercial, residential and rentals
- Scheduled pumping and cleaning
- Emergency response and repair coordination
